

LUX-TSI announces two new senior appointments in its UK division

September 27, 2016- Pencoed, Cardiff, LUX-TSI is pleased to announce two new senior appointments to its UK leadership team as part of its growth in the testing and certification of LED lighting products.

Menno Schakel joins the company as Senior Technical Expert from Philips Lighting and will lead the team of expert engineers and consultants to support manufacturers with the Performance Testing of Lighting products including photometry, photobiological testing, life and endurance testing for CE marking and schemes such as Lighting Facts, Energy Star, Design Lights Consortium and California Energy Commission. Menno is active in international standards committee including CIE where he is heading up a new programme to develop a CIE standard for the proper measurement of flicker in LED lighting.

Peter Dobromylski joins the company as Technical Sales Manager and has over 20 years of experience in the electronics industry formerly at Spirit Circuits. Peter will work as part of a team led by our Sales and Marketing Director, David Mudd a recognised leader in LED lighting formerly of Photonstar LED. Both provide enhanced support to increase our knowledge sharing with the UK lighting industry and support our activities in Asia and Central Eastern Europe

Dr Gareth Jones, CEO said “We are so pleased to have Menno and Peter on our team to help lead the next stage in our growth to help all our customers in the lighting industry to build better products compliant and purposed for global markets in a changing technology landscape led by LEDs and the Internet of Things.

Menno adds depth to our capability and creates a step change in our technical knowledge and Peter adds breadth to our commercial capability and I wish them a very exciting journey with LUX-TSI.

Their addition to the team will enhance our ability to support our customers both large and small with technical knowledge and guidance on best practise in testing and market access to sell products worldwide.

About LUX-TSI

LUX-TSI is a European independent testing, certification and consultancy services company. We focus on LEDs (and other optical equipment) in the lighting, medical and consumer electronic products industries. Our laboratories are accredited with UKAS (ILAC), UL and BSI as well as operate quality management systems conforming to ISO/IEC 17025. LUX-TSI has access to over 150 years of expertise in its engineering and management team, employing state of the art product testing equipment within leading edge laboratory facilities.
